

Dear Drainage Contractor

Thank you for downloading the DrainSafe prospectus and application form.

The purpose of the prospectus is to make sure you have all the necessary information before joining the scheme.

DrainSafe Prospectus

What are the Aims & Objectives of DrainSafe?

- (a) To enable customers to recognize and choose competent drainage professionals
- (b) To validate the training and certification of drainage professionals
- (c) To provide commentary, guidance and advice on regulatory developments of relevance to DrainSafe subscribers
- (d) To support the professional development of the drainage industry through the NADC training programme and member representation

Why You Should Join DrainSafe?

Until now, there has been no recognised scheme that promotes the professionalism of drainage contractors with a recognised mark – the DrainSafe brand.

A DrainSafe accredited contractor will be recognisable to customers as a competent contractor capable of doing the job.

By being an accredited DrainSafe contractor you will be part of an exciting development which will support the aims of the NADC as a representative body for drainage contractors

Who Should Join DrainSafe & What Does It Cost?

All drainage contractors are welcome together with suppliers, consultants, advisers and trainees.

Annual registration fee is £300 per subscriber company PLUS £30 for each registered employee.

All subscribers to DrainSafe must be members of the NADC which costs £350 per annum for contractors with less than 25 vans, and £700 for those with 26 vans or more.

How are DrainSafe subscriptions invested?

All subscriptions will go towards covering the costs of operation of the scheme, including oversight to ensure subscribers to DrainSafe comply with the provisions of the scheme. We will also invest in promotion of the scheme to customers and relevant other professional organisations.

What Commitments Do You Have to Give?

There are only a few commitments you need to give to be a subscriber to DrainSafe – and they are all very affordable ways of making NADC members stand head and shoulders above non-members:

- Be an NADC member
- Commit to meeting the minimum training and qualification requirements stipulated
- Commit to a whole year's membership and subscriptions
- Commit to the DrainSafe Standards and Code of Practice
- Be qualified for the work you do, be insured, be professional and fair, have a complaints procedure, accord fully with the judgement of the redress mechanism

Why You Should Take Action Now & Join?

You can help us shape the future of the industry. We are stronger together as an association of like-minded business people working to meaningful industry standards rather than as individual contractors.

I look forward to welcoming you to DrainSafe!

Best wishes

Peter Stacey
Chairman
